V. 36

The Chemical Age

Index to Volume XXXVI. January—July, 1937.

A

A New Way of Making Gas Non-Poisonous, 544.
Accidents, 59.
Accidents are Prevented at I.C.I. Works, How, 4.
Air Raid Precautions, 228.
Alleged Passing Off, 502.
Alloys for Aircraft Construction, New, 74.
Aluminogel: Its Manufacture and Properties, 51.
Analysed Samples, 238.
Analytical Reagents and Research Chemicals, 91.
Analytical Reagents, My Opinion of Present-Day, C. H. Manley, 97; Edward Russell, 97; Arnold R. Tankard, 98; S. Judd Lewis, 98.
Analytical Reagents, Tested, 99.
Analytical Reagents, The Manufacture of, 100.
Ancillary Industries of Calcium Carbide Production, 339.
Apparatus or Industrial Laboratories, 356.
Application of Chemistry to Industry, The, 45; (Corrections) The Chemist and the Industrialist, 78.
Ascorbic Acid, Chemistry of, 168.
Atmospheric Corrosion, Conference on, 162.
Atmospheric Pollution, The Study of, 500.

AUTHORS—

Alexander, Lee Linsley, The Reversible Friedel and Crafts Reactions, 50; Appel, W. D., Testing the Colour Fastness of Dyed Textiles, 436; Armstrong, Dr. E. F., After the Coronation: some likely developments, 406; Armstrong, Professor H. E., An Appeal to I.C.I. to Open a Lunatic Asylum, 46.
Baker, Stanley, Recent Developments in the Use of Copper Alloys for Chemical Plant, 413; Barcham Green, J., The Selection of a Filter Paper, 96; Barron, Dr. Harry, The Industrial Consultant and His Laboratory, 361; Blew, Michael J., The Economic Importance of Waste Treatment, 31; Braby, F., Precious Metals in the Laboratory, 369; Brownlie, David, Economy in the Maintenance of Steam Generation Plant, 141.
Butcher, Harry T., Chemical Centenaries of 1937, 13; Chaley, Vernon L. S., Laboratory Methods in Fruit Products Research, 357; Clayton, W., The Outlook for Colloid Chemistry, 408.
Foxwell, Dr. G. E., The Future of the By-Products of Coal, 410.
Gair, C. J. D., Spectroscopic Control and Analytical Reagents, 99; Garner, T. L., Sulphur and Other Rubber Vulcanising Agents, 254; Glennie, Miss Elizabeth, The Laboratories of the Food Investigation Board, 362.
Hall, A. J., Recent Textile Processing, Developments, 443; Hall, A. J. Textile Dyeing and Finishing in the Future, 408; Hollings, H., The Estimation of Nitric Oxide in Gas, 501.
Jenkins, C. H. M., Properties and Stability of Metals at High Temperatures, 437.

Authors—*continued.*

Lamb, G. D., Some Special Electric Furnaces, 373; Larson, T. E., Colloidal Properties of Hydrous Alumina, 439; Levinstein, Dr. Herbert, Chemical Industry and the Outlook in Europe, 203; Lewis, S. Judd, My Opinion of Present-Day Analytical Reagents, 98.
McCulloch, R. P., Electricity in the Chemical Industry, 133; Manley, C. H. My Opinion of Present-Day Analytical Reagents, 97; Maxted, Dr. E. B., 409.
New, G. F., The Application of Titanium Oxide in Industry, 29.
Packard, Walter G. T., Superphosphate: Its History and Manufacture, 67; Parrish, P., Maintenance Problems of Calcium Superphosphate and Sulphuric Acid Plants, 136; Phillips, D. H., Chemical Tests for Textiles, 435; Pickard, J. A., The Maintenance of Efficiency in Filters, 137; Pincas, Dr. H. C., Ancillary Industries of Calcium, Carbide Production, 339.

West, J. H., Selecting the Site for a Factory, 231; Wilson, J., Interchangeable Conical Ground Glass Joints, 371; Withey, S. Howard, Chemical Industry Finance, 274; Wright, A. G., Factory Equipment for the Manufacture of Cosmetics, 47; Getting Extra Efficiency from Chemical Plant, 457; Wright, A.G., Good Constructional Features Give Efficiency, 159.
Yagoda, Herman, Applications of Confined Spot Tests in Analytical Chemistry, 271; Yardley, V. A., The Maintenance of Autoclaves, 134.

B

Bed-Bug Disinfestation, 423.
Beechams Pills, Ltd., 449.
Beilby Memorial, Sir George, 77.
Benzol, Production of, in the United States, 571.

BOOKS RECEIVED—

Books Received: 59, 81, 222, 305, 330, 380, 432, 454, 516, 536, 586.

BOOK REVIEWS—

Absorption and Extraction (McGraw-Hill Publishing Co., Ltd.), by Thomas K. Sherwood, 551; Aluminium Paint and Powder (Edwards), 56; Applied Chemistry for Engineers (Ward), 34; Aromatic Diazo-

Book Reviews—*continued.*

Compounds and their Technical Applications, The (Saunders), 56.
Barium Minerals (Imperial Institute), by J. Simpson, 551.
Carbon Dioxide (Quinn and Jones), 34; Ceramic Data Book, 1937, 526; Chemical Principles: with Particular Application to Qualitative Analysis (Yeo), 303; The Chemistry of Natural Products Related to Phenanthrene, 526; Colloidics (Kolloidik) (von Busagh), 12.
Dechema Monographs, Vol. 1, 170: Dispensatory of the United States of America, The, 304; VDI Review of German Engineers' Association, 526.
High-Melting Hard Materials and their Technical Application. (Hochschmelzende Hartstoffe und ihre technische Anwendung). (Becker), 12; Hydrofluoric Acid, Fluosilicic Acid and their Metallic Salts (Flussaure, Kiesilflussaure und derem Metallsalze), (Kausch), 12.
Inorganic and Theoretical Chemistry (Sherwood Taylor), 12; Inorganic Chemistry (Morgan and Burstall), 12; Introduction to the Science of Colloids (Einfuhrung in die Lehre von den Kolloiden), (Bechhold), 12; Intermediate Chemistry (Lowry and Cavell) 303; Ions in Solution (Gurney), 56.
Kelly's Directory of the Merchants, Manufacturers and Shippers of the World, 551.
Laboratory Methods of Organic Chemistry (Macmillan & Co., Ltd.), by L. Gattermann, 551; Laboratory Methods of Organic Chemistry (Gatterman), 127.
Metal Ceramics (Metallkeramik), (Skaupy), 12.
New Laboratory Experiments in Practical Chemistry, by N. H. Black, 260; New Practical Chemistry, by N. H. Black and J. B. Conant, 260.
Practical Organic Chemistry (Mann & Saunders), 56; Prelude to Chemistry: An Outline of Alchemy, its Literature and Relationships by John Read, 260; Printing Metals (Fry's Metal Foundries), 551.
Quantitative Analysis (Rieman and Neuss), 303.
Remington's Practice of Pharmacy (Cook and LaWall), 170; Report of the Building Research Board for the Year 1935, 127.
Silicate Analysis (Thomas Murby), by A. W. Groves, 551; Semi-Micro Qualitative Analysis (Engelder, Dunkelberger and Schiller), 303; Sprechsaal Year Book for Ceramics, Glass and Enamel, 1937, (Koerner, Ed.), 370; The Structure of Metallic Coatings, Films and Surfaces (Faraday Society), 260; Structure and Molecular Forces in (*a*) Pure Liquids and (*b*) Solutions (Faraday Society), ; Survey of the Import Trade of India, 127; Sulphuric Acid Manufacture (Chapman & Hall, Ltd.), by Andrew M. Fairlie, 551; Synthetic Inorganic Chemistry (Blanchard, Phelan and Davis), 34.
Taschenbuch Fur Die Farben- und Lackindustrie, 526; Technology of Plastics, The (Rowell), 56; Text-

Book Reviews—*continued.*

book of Chemical Technology (Lehrbuch der chemischen Technologie), (Ost-Rassow), 12.
Unit Processes in Organic Synthesis (Groggins), 34.

Border-line Knowledge, 425.
Boys' Hostels Association Banquet, 484.
Britain's Air is Purer than 20 years ago, 484.
British Alkaloids, Ltd., 491.
British Association, The, 382.
British Association of Chemists: Annual Review, 8; Annual Meetings—London and Liverpool, 377; Message from President, 403, 579.
British Chemical and Dyestuffs Traders' Association, 336, 403.
British Chemicals (New Directory of Manufacturers), 36.
British Industries Fair: Record Figures for Coronation Year, 49; A Survey of the Chemical Section, 143; What to See at Olympia, 143; Impressions of the Birmingham Section, 163; One of the Most Successful, 218.
British Overseas Chemical Trade: December, 80; January, 172; February, 258; April, 468; May, 550.
British Plastics Federation, The, Annual Review, 9.
British Research Organisations, 486.
British Standard Institution, 527.
British Standard Specifications, 488.
British Sulphate of Ammonia Federation, Annual Report for 1935-36, 3.
Bromine, Recovery of, from Sea-Water, 521.
Business Classes versus Politicians, 548.

C

Canadian Chemical Industries, 540.
Carbide Works for Britain, 238.
Carbon Tetrachloride (C.T.C.), R. G. Stilton, of Albright and Wilson, Ltd., 572.
Casein in the Manufacture of Plastics, 229.
Cellulose Acetate Plasticizers, 571.
Cellulose Ester Lacquer Solvents and Plasticizers, 568.
Cellulose Solutions Dangers from, 168.
Ceramic Society, The, Annual Review, 7.
Ceramists' Annual, 1937, two parts, 370.
Cheaper Solvents, 575.
Chemical and Allied Trades at Manchester: Points from the Annual Reports of the Chamber of Commerce, 116.
Chemical Centenaries of 1937, Harry T. Butcher, 13.
Chemical Engineer and Industrial Planning, 412.
Chemical Engineering Congress: Financial Statement, 14.
Chemical Engineering Group, 423.
Chemical Engineering in Germany, 539.
Chemical Industry and the Outlook in Europe, Dr. Herbert Livinstein, 203.
Chemical Industry, Increasing Prosperity in the, 27.
Chemical Industry in the United States, 503.

CHEMICAL NOTES FROM FOREIGN SOURCES—
